

360 Day Year

God's Calendar is based on a 360 day year, 30 days per month, with the extra 5 days added to the end of the winter season, the end of the year.

The following web site: *Clues, Ten, Eleven and Twelve*, is just a touch of what is available for information on the 360 day year.

Please note that even in the Hebrew calendar, the extra 5 days were added onto the END of the year.
